

The General Assembly of FIMM 2008 Varna

Dear Colleagues,

We are delighted to welcome you in Varna – the Black Sea Pearl.

The key issues of the FIMM General Assembly 2008 are the following:

- The General Assembly should finally decide on the financial structure of FIMM.
- The General Assembly should debate on structural and procedural changes according to a motion of DGMM.
- The General Assembly should discuss its relationship with the FIMM International Academy of Manual/Musculoskeletal Medicine.

We hope that the General Assembly 2008 will be creative and constructive.

The Assembly takes place in co-operation with the Bulgarian Society of Manual Medicine.

Welcome to Varna!

Dr. Wolfgang von Heymann
FIMM President
