

**Report of the Chairman of the  
FIMM Education Board**

Ass. Prof. Dr. Ilia Todorov

5 Nov 2023  
Online General Assembly

The FIMM education project was created in May 2017 in Prague at the mid-year Executive Board meeting.

**TASK**

The task of the FIMM Project on Education is to develop and implement educational programs that will support the basic curriculum of 300 hours training in Manual/Musculoskeletal Medicine.

The period of development started in 2018 and will end in 2023.

2

**The FIMM Education board from 2018:**

- Heather Ferrill, (USA)
- Karen Goss (Denmark)
- Me-riong Kim (South Korea)
- Negev Bar (Israel)
- Javier Martinez (Spain)
- Norbert Teisseire (France)
- Stephan Winzelberg (Germany)
- Ilia Todorov (Bulgaria), chairman

From the start of the project the education programs of 4 countries have passed the evaluation of the FIMM Education Board: Denmark, Germany, Switzerland and Spain.

The dedicated task force for USA made some progress but could not finalize its effort.

We have also created some documents:

- FIMM education program checklist
- FIMM teachers checklist

4

The Education board has done an intensive work provided by several face-to-face meetings till the end of 2019, after which the COVID pandemic interrupted that trend. We continued though with online meetings, but we were experiencing difficulties with the educational programs / models of the Non-European member countries.
